

The IMDS Release 12.1 published in March 2020 allows the IMDS CAMDS MDS data transfer. This requires the use of the AI interface. Find out when the investment will pay off and how the data transfer can be done.

The IMDS Release 12.2, scheduled for June 2020, provides several new functions.

Get to know the new options and functions in order to use the IMDS focused and efficient in your company

Objective

You are familiar with all new functions and changes provided by IMDS Release 12.2. You can assess the effects on your daily work and can safely use the new functions. You know the preconditions for the IMDS CAMDS MDS data transfer. You can create the interface between IMDS and CAMDS and carry out the transfer of MDS data. You can estimate efforts of data transfer between IMDS and CAMDS in relation to the costs of the AI interface.

Content
