

6193 IMDS Release 12.2 - Select the right application codes now

Objective

Compliance with legal guidelines and regulations as well as the requirements of the automotive industry is increasing. IMDS Release 12.2 changes the way application codes are handled.

In this context, you will know which new tasks you will face with in IMDS Release 12.2 and which role application codes play. You know how to find application codes and how to check them. You are able to determine the correct application code. You are familiar with setting the correct application code in the system to prevent rejection reasons in advance. This way, you guarantee compliance with legal guidelines and regulations and meet the requirements of the automotive industry.
