

## W173 Deactivation Rec19 – What to do now

### Objective

Due to a changed view of the REACH Regulation, the reporting requirements for E/E components are changing. IMDS Recommendation 019 will be deactivated.

After this webinar, you will be familiar with the changes for electrical and electronic components and will be able to apply the new rules and guidelines for the error-free creation of material data sheets in IMDS. You will be able to consider the now valid form of reporting in your IMDS process. You will know all possibilities to create IMDS data in the now more complex structures and support a functioning customer and supplier relationship.

### Webinar content

- ☐ Interpretation of Annex II (2017/2096/EU)
  - Scope for passenger cars
