

6220 Working with CAMDS (China Automotive Material Data System)

China has introduced its own web-based product management platform for the automotive industry in order to meet the recycling and reutilization target (China ELV) for automobile products: the CAMDS (China Automotive Material Data System). It is a material data system with almost the same functions as IMDS. However, other parts are conceived differently and require a somewhat different approach. An increasing amount of customers that produce for the Chinese market require their suppliers to enter the material data in CAMDS.

Objective

You know the background and goals of the China Automotive Material Data System (CAMDS) and understand your responsibilities what regards compliance as a part of the supply chain. You know how to use and apply CAMDS and can employ the most important functionalities as well as create and send material data sheets.

Training Content

- ☐ Introduction to CAMDS
 - History and Background
 - Registration and password reset
 - Term of use (Use Conditions)
 - Dataflow, Datavisibility, data security concept
- ☐ Requirements in CAMDS
 - Relevant legal background at a glance (China ELV, etc.)
 - The CAMDS „Guidance“
- ☐ Definitions
 - Material data sheet (MDS) and Module
 - Basic Substance list in CAMDS
 - Material classification in CAMDS
 - Parts, semi-components and materials
- ☐ Creating and checking tree structures
 - Material data sheet (MDS) and module
- ☐ Processes
 - MDS actions (release, send, publish, propose, forward)
 - Sent MDS
 - Received MDS
 - Version control, Copying, Deleting
- ☐ Analysis Function
 - Classification analysis
 - Basic substance analysis
- ☐ Overview MDS request function
 - Searching and creation
- ☐ General Functions
 - Password Settings
 - Personal settings

Teaching Method

Training with Demonstration

Participants

Automotive suppliers who want to use CAMDS for compliance purposes

Requirements

Basic knowledge in the use of PC and Internet, as well as basic knowledge of IMDS

Training duration

1 day, from 9a.m. to 5p.m.

Max. number of participants: 14

Training documentation

You receive your personal copy of the presentation used in our training. Further information can be found in the download area of our website.

Public trainings

Current fees and dates can be found on our website www.imds-professional.com

Exclusive training

You can also book this training exclusively. In this case, we charge a daily fee. Your advantage: You set the time, the place and the number of participants. If preferred, we also take over the whole organisation. We are happy to provide you with room facilities and technical equipment, and take care of additional service and catering.
